LED Flush Mount

FM1515
INSTALLATION SHEET

START FROM HERE

- Make sure **POWER** is **COMPLETELY OFF** at the fuse box
- Have your fixture installed by a qualified licensed electrician
- Prepare everything in a clear area
- Wear gloves at all time during this installation
- Read instructions carefully before you start assembly
- Keep this installation sheet for future reference

Technical Support: 1-855-855-8926

Please Note:

- This Kuzco LED fixture comes with pre-wired LED module(s)
- Unless instructed to do so, please do not touch any part of the LED module(s) as any unnecessary contact with the module could cause permanent damage
- For dimming, an ELV (Electronic Low Voltage) type of dimmer is required
- 120V input

1. Remove fixture from its original package

2. Attach crossbar **(1c)** to electrical junction box **(1a)** using junction box screws **(1e)** provided in hardware package

3. Make proper electrical connections (**black** to **hot** "L", **white** to **neutral** "N", **ground** to **"GND")** with wire nuts **(1b)** provided in hardware package

4. Install Pan-Head Crossbar Mounting Screws **(1d)** halfway into threaded holes on crossbar **(1c)**. Align keyholes on backplate **(2a)** and module to Pan-Head Crossbar Mounting Screws **(1d)** heads, insert and turn, and then secure with screw driver

5. Gently pull back clips **(2b)** to secure glass **(3a)** onto backplate **(2a),** followed by the ring **(3b)** until it clicks into place (**Note:** do not apply too much pressure, as excessive pressure will cause the glass to crack or break)
